

MENIFEE VALLEY UPPER DIVISION SOFTBALL

TRADES/TRANSFERS

July 23, 2011

- Trades/transfers will be permitted up to, and including, the halfway mark of any season.
- Trades/transfers can be made for ANY reason. However, the manager initiating the trade must inform league officials as to the specific reason for wanting the trade.
- Trades/transfers must have the agreement of ALL players involved: the manager and player initiating the trade, and the manager and player (if a player is involved) of the non-initiating team.
- No trade/transfer will be approved which increases a team roster count beyond the 12-player roster limit.
- A transfer can be made which involves the reassignment of only one (1) player from one team to another. Such a transfer can only occur if the team that is receiving the “reassigned” player is under the 12-player roster limitation.
- Any trade involving multiple players will only be made on a one for one basis; i.e. one player cannot be traded for two, or more, players.
- No trade will be consummated until at least a quorum (three -3) of league officials has reviewed, and a majority has approved, the trade. League officials reserve the right to disallow a trade if such a trade is deemed not to be in the best interest of the league, but otherwise will not unduly withhold approval of a trade.
